LIVEABOARDS

Believe or not, cruise is the best way of really appreciating the unique beauty of the Maldives, 99% of which is water. We offer you several possibilities. You may choose between a diving safari and a relaxing cruise through the atolls, which lets you be in total harmony with nature as your boat winds its way through the multitude of islands.

Most of the vessels are equipped with modern diving equipments and staffed by qualified diving instructors. While some vessels offer standard accommodation and facilities, others offer luxury accommodation with all the modern amenities.
