eCheckInn for Property and Villas

eCheckinn is a multi-property management solution for small hotels, guest houses, resorts, bungalows and apartments with in a single product. The solution integrates with a real time booking and availability on the property website and also has channel partner (B2B) integration.

Allotments can be directly posted to bedbanks of your choice (eg. booking.com, agoda.com, Trip Advisor etc.)

eCheckinn is quick to set up, easy to use and full of modern time-saving tools that can assist in running your property. It helps you manage all crucial reservation functions such as booking, amendment and cancellation through an easy to use, simple & flexible reservation grid.

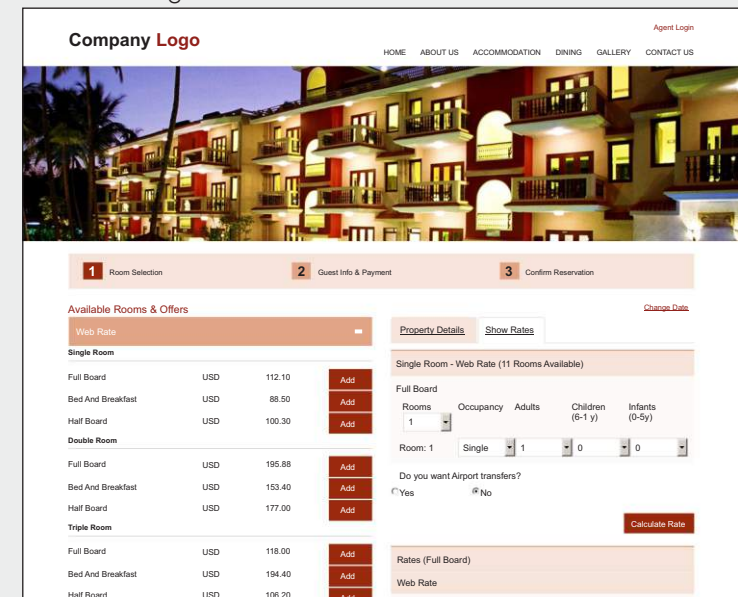

Small Hotels / Guest Houses / Apartments & Villas

Monthly Room Occupancy Chart

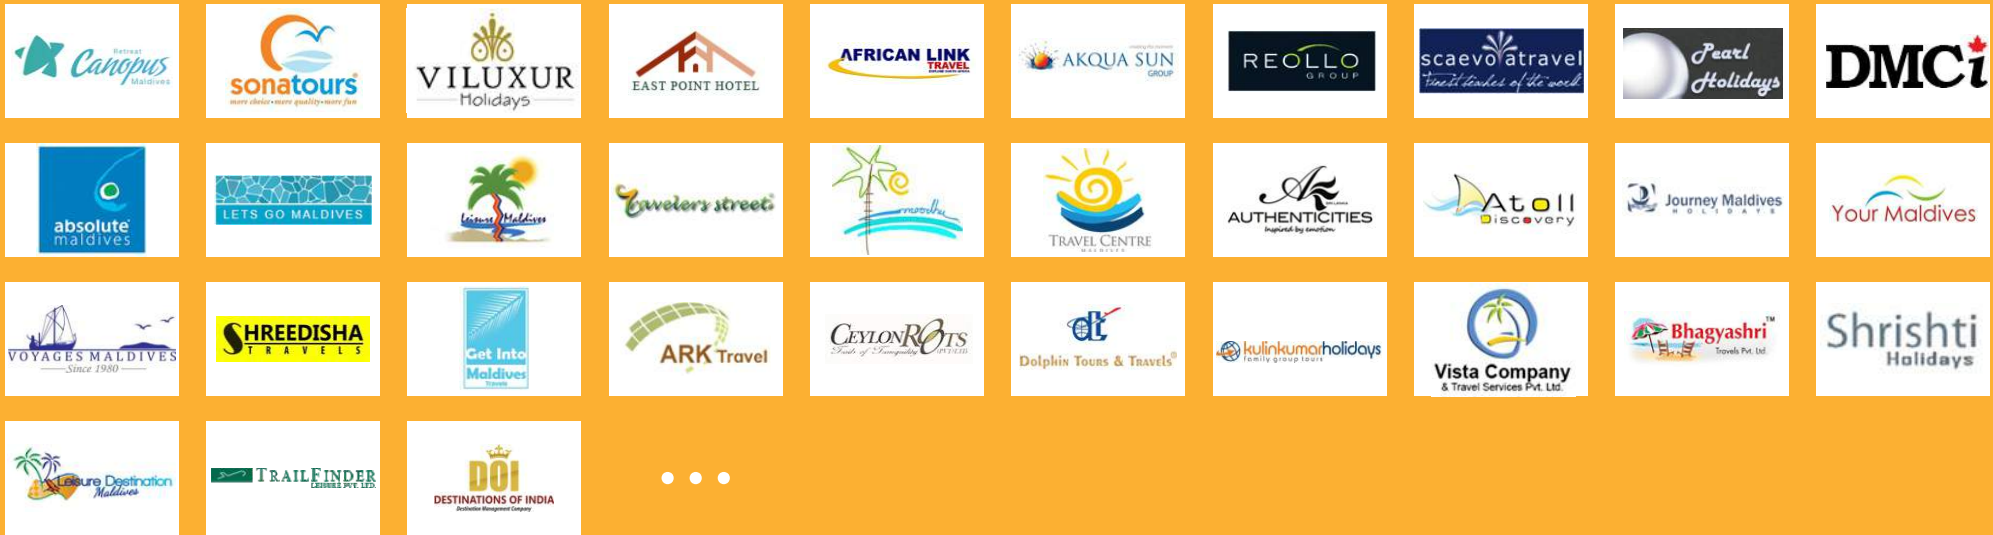

Nationality Wise Monthly Room Occupancy Chart

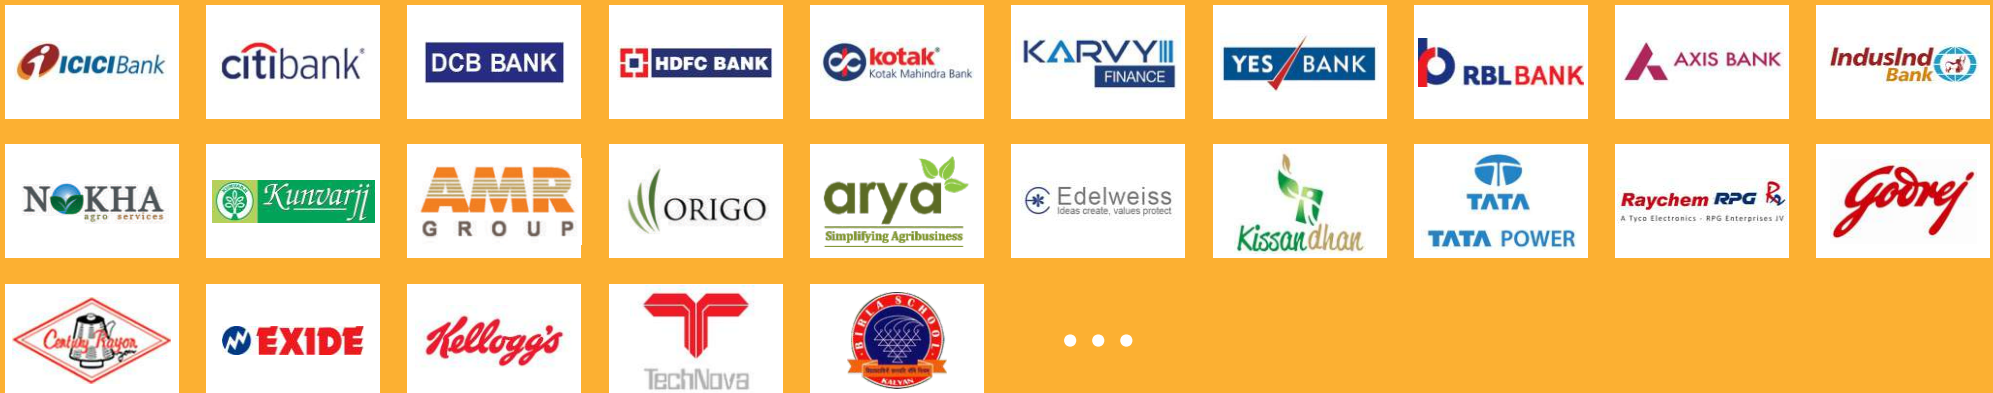

Front Desk (Reservation)

The screenshot shows a reservation management interface for August 2015. It includes a navigation bar with user information (Vishal Shah, Admin), a search bar, and a calendar grid. The grid displays room numbers (e.g., 3001, 3002, 3003, 3004, 3005) and their status for each day. Guest names and dates are listed in the cells. A legend at the bottom explains reservation statuses: New, Reserve, Assigned, Check In, Check Out, Dirty, Touch-up, DNR, Inspect, Repair, and Split.
